

KRISTIAN UREMOVIC

Lake Forest, IL 47906 | 773-219-4257 | kuremovi@purdue.edu

EDUCATION

Purdue University, Polytechnic College
Bachelor of Science, Cybersecurity
Minor: Finance

West Lafayette, IN
December 2027
GPA 3.92/4.0

PROFESSIONAL EXPERIENCE

CERIAS

Security Researcher

West Lafayette, IN
January 2026 – Present

- Benchmarked GCC compiler hardening flags (stack protectors, FORTIFY_SOURCE, PIE) on ARM Cortex-M3 running Zephyr RTOS for a Caterpillar-funded ICS/OT security research project
- Developed a 9-application benchmark suite across CRT-C taxonomy categories, verified 115 RTOS applications via Twister, and delivered a 40-page methodology export to faculty and industry stakeholders

Purdue University – Data Mine

AI Security Researcher

West Lafayette, IN
January 2026 – May 2026

- Built ML anomaly detection models for system telemetry data
- Performed feature engineering and model evaluation to reduce false positives

Purdue University – College of Liberal Arts

Undergraduate Researcher

West Lafayette, IN
January 2026 – May 2026

- Implemented sparse autoencoders to identify LLM propagandization
- Wrote Python tooling to probe and quantify model behavior under parameter changes

LEADERSHIP AND PROFESSIONAL DEVELOPMENT

Polytechnic Student Council

Outreach Committee Member

West Lafayette, IN
September 2025 – Present

- Organized campus outreach initiatives
- Enhanced student engagement through event coordination

HOME LABS AND PROJECTS

Home Lab – SOC Environment and Detection Engineering

- Deployed a multi-segment SOC environment with Active Directory, Security Onion (SIEM/NSM), pfSense, and ICS/OT monitoring, writing Sigma, Suricata, and YARA detection rules mapped to MITRE ATT&CK
- Simulated full kill chain attack campaigns and conducted NIST SP 800-61 incident response exercises including timeline reconstruction, IOC extraction, and detection gap analysis.

Project – Cloud-Based Motion Detecting Webcam

- Deployed a MotionEye-based detection system using a webcam and Linux host to capture and trigger events
- Built AWS S3 + Lambda pipelines to store and process video artifacts

LICENSURE AND CERTIFICATIONS

- CompTIA Network+
- CompTIA Security+

RELEVANT SKILLS OR RELEVANT INTERESTS

- Trilingual (English, Croatian, Russian)
- Networking: VLANs, Subnetting (CIDR/VLSM), Static & Dynamic Routing (OSPF), ACLs, NAT
